

WEATHERTEC® PLATFORM

On the forefront of all-weather staging equipment, the WeatherTec® Platform is designed to last and endure harsh outdoor conditions. An innovative aluminum honeycomb core makes the latest platform from Staging Concepts lightweight and durable in demanding weather conditions. Its enhanced weatherproof design makes it perfect for outdoor applications such as concerts, corporate events, VIP events, golf tournaments, pool covers, and more. Meeting the same quality and strength requirements of Staging Concept's flagship product—the SC90 Platform, the WeatherTec Platform's load rating exceeds 150 lbs/ft² (732 kg/m²). As an alternative to our current Staging Concepts SC97 all-aluminum platform, the WeatherTec Platform is engineered to have improved sound dampening and aesthetic qualities. When you need all-weather performance from your staging platform, consider Weathertec!

**WeatherTec's Optional Underside's
built-in Leg Storage**

The WeatherTec Platform incorporates a slip-resistant quad-ripple surface, available in both black and gray. A variety of other surface options are also available upon request. A full line of accessories including supports, storage carts, guardrails, and other staging needs are available. The WeatherTec Platform is fully compatible with all other Staging Concepts equipment and comes with a 3-year warranty.

WEATHERTEC PLATFORM

ADVANTAGES

Strength

- Constructed with 1" (25 mm) thick aluminum honeycomb core
- Standard 4'x8' platform is engineered to support 150 lbs/square foot (732 kg/square meter) with additional loading options
- WeatherTec comes standard with top locking Roto-Locks, providing monolithic floor when platforms are locked together

Durability & Efficiency

- 0% water absorption and slip-resistant surface
- Platform only needs support in four corners for quick setup
- Patented aluminum extrusion allows for guardrails, step units, closure panels, chair stops, and skirting clip attachment – with no loose parts
- Platforms easily handled by two people- our standard 4'x8' platform only weighs 136 pounds

Variety

- Standard quad textured polypropylene surface (black or gray) - Other surface options available upon request
- Compatible with all Staging Concepts understructure and accessories
- Storage carts available

Field Repairability

- For those unavoidable accidents, repair/replace only damaged part of platform (platform surface lid, side of extrusion, corner piece, etc.) – no need to replace entire platform
- WeatherTec comes with a 3-year warranty
- Repair on-site – no need to send back to factory for repairs

TECHNICAL SPECIFICATIONS

The WeatherTec Platform is a single side, outdoor, weather-resistant, portable platform. The WeatherTec platform is designed to be fully field repairable, to function with all Staging Concepts' supports, understructure and accessories.

- Edging: 4" (101.6 mm) high, extruded 6005-T5 aluminum frame, including protective edge, mill finish. Design frame to accept:
 - Built in Roto-Lock system
 - Structural locking clip system
- Guardrail
 - Chair stops
 - Closure panels
 - Step units
 - Skirting clips
