

SC100 FOLDING BRIDGE FRAME

The SC100 Folding Bridge Frame, also referred to as a C-frame, is a functional frame that allows bridging between platforms, saving valuable setup time. The frame, which is available in fixed and adjustable heights, folds flat and is self-contained. Custom sizes are available and allow you to use the SC100 with the SC90 Single Side Platform or the SC97 All-Aluminum Platform.

ADVANTAGES

Efficiency

- "Bridges" platforms front to back and side to side, resulting in fewer supports for fast setup and strike
- Locator nodes lock into place on each column and automatically align platforms – no need for readjustments
- Setup easily by two people with no special tools
- Platforms lock together to provide monolithic floor

Adjustability

- Coarse and fine adjustment for uneven terrain or level changes
- Wide range of adjustable heights available

Variety

- Used as understructure for both flat stages and seating risers
- Fixed heights available upon request

Durability

- Constructed of ERW carbon steel
- C-frames have black powder coat finish for rust prevention
